

PaintFlex® Extra can be applied to Stainless Steel Products. - 02

PaintFlex® is the liquid paint that can be applied directly to the surface of polyethylene & other hard to paint products.

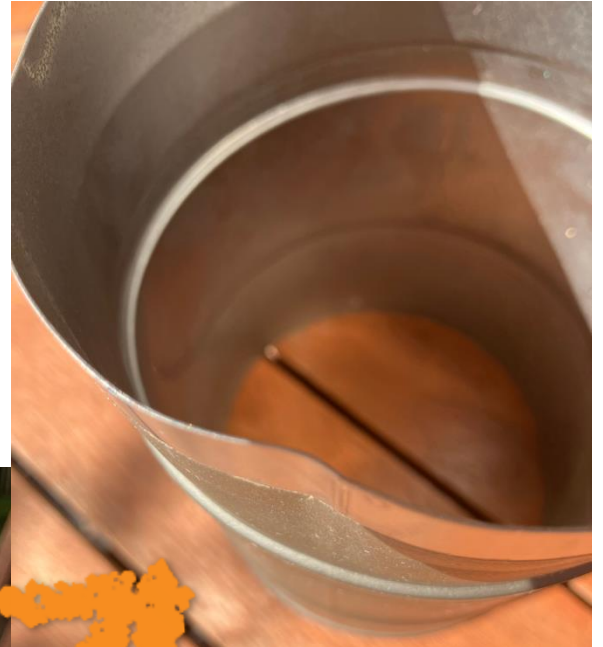

16.Jul.2026

You can apply PaintFlex® Extra directly to stainless steel products without any special surface preparation such as sanding using common equipment a Spray/ Brush/ Roller.

Over a period of more than 12 years, PaintFlex® Extra has not peeled off the stainless steel, even when accidental bending occurred.

Apply: 2014
