

Painted Stainless Steel Playground Equipment in Swimming Pool powered by PaintFlex®

15.Aug.2026

Painted Stainless Steel Playground Equipment in Swimming Pool, which **PaintFlex® Extra** was used as the base paint.

- Why used PaintFlex® Extra as a base paint.
 - You can paint PaintFlex® Extra directly on
 - ✓ the Stainless Steel products itself
 - ✓ Welded part of Stainless Steel
 - ✓ Stainless Steel Solid Rusted partwithout sanding or Mechanical or Chemical damages.
 - PaintFlex® Extra protects from Rusting/Corrosion on the Stainless Steel Products.

Remind:

When sanded, the properties of stainless steel turn to those of steel.
When welded, the properties of stainless steel turn to those of steel.
When Bend, the properties of stainless steel turn to those of steel.
