

Bonding Dis-Similar Materials - 02

Polyamide & Galvanized Steel. Powered by PaintFlex®

PaintFlex® is the liquid paint that can be applied directly to the surface of polyethylene & other hard to paint products. 27.Aug.2026

You can Bond Polyamide & Galvanized Steel.
powered by PaintFlex®

How to Bond:

Step1. Apply PaintFlex® Liquid Paint to the Surface of the Polyamide product.

Step2. Bonding Galvanized Steel & "Step1" with Elastic Adhesive
(e.g. CaulkingFlex®)

Remind about

PaintFlex® Colour: We can supply most of custom requested colour.

Permanent adhesion

- between Polyamide product surfaces and PaintFlex®, and,
- between PaintFlex® and Elastic Adhesive (e.g. CaulkingFlex®)

does not require any heat treatment such as flame treatment or corona treatment.
